

Muhammad Umar Abid

Software Development

Manchester/London, UK | 07449312342 | star_umar2008@hotmail.com | [LinkedIn](#)

A highly motivated Software Engineering graduate who is a **heavy, practical user of AI to design, plan, and build software end-to-end**. Experienced in translating problem statements and stakeholder discussions into clear **Markdown-based requirements**, breaking work down using **structured planning modes**, and rapidly delivering working solutions with AI-assisted development. Comfortable building applications using C#, JavaScript, and SQL, with hands-on exposure to cloud platforms, modern development practices, and agile delivery. Strong collaborator with a disciplined, detail-oriented approach, combining human judgement with AI to accelerate development while maintaining code quality, clarity, and intent.

AI SKILLS & Tools

- Cursor
- Claude Code

TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), Java, C#.
- **Front-end Technologies:** HTML5, CSS3, React.js, AJAX, Tailwind CSS, SCSS/SASS, Bootstrap, Material UI.
- **Back-end Technologies:** Node.js, Express.js, C#, Spring Boot
- **Databases:** MySQL, PostgreSQL.
- **Tools & Frameworks:** Git, Bitbucket, Jira, Visual Studio, Tomcat, AWS (Basic).
- **Development Practices:** Agile (Scrum), OOP, SOLID Principles, Test-Driven Development (TDD), CI/CD.
- **Soft Skills:** Strong analytical thinking, problem-solving, remote collaboration, adaptability, teamwork, communication.
- Keen interest in learning and developing expertise in DevOps, cloud platforms (AWS, Azure, GCP), and emerging technologies.

EDUCATION

BSc (Hons) Software Development – First Class Honours

Manchester Metropolitan University | Sep 2020 – Jun 2023

- Awarded Student of the Year (2022) for excellence in Management, Digital, and Engineering.
- Served as Student Representative (2023), advocating for academic and student concerns.
- Key modules: Software Engineering, Web Application Development, Databases, Agile Practices.

Level 3 Diploma – ICT Systems and Principles for IT Professionals

The Manchester College | Sep 2019 – Jun 2020

COURSES & CERTIFICATIONS

- **FreeCodeCamp:** JavaScript Algorithms and Data Structures (*Ongoing*)
- **LinkedIn Learning:** Building RESTful APIs with Node.js and Express, Node.js Essential Training.
- **Udacity:** Web Accessibility, Website Performance Optimization
- Working towards Google Cloud Platform (GCP) Cloud computing.

PROJECT

[Hotel Management system](#) | Manchester Metropolitan University | May 2023

- Built a full-stack web application to manage bookings, cancellations, and employee roles.
- Created an admin dashboard with role-based access, improving operational efficiency.
- Integrated a MySQL database for dynamic data handling and automation of booking processes.
- Technologies: React.js, Node.js, Express.js, MySQL, Material UI

PROFESSIONAL EXPERIENCE

Junior Software Developer

Aero Parker, Manchester, UK | Jan 2025 – May 2025

- Developed and optimised front-end and back-end features for airport parking and lounge booking systems.
- Automated permission-based access controls, improving scalability and security.
- Collaborated in an Agile Scrum team, delivering enhancements through Jira and sprint planning.
- Improved user experience by resolving critical system issues and optimising workflows.
- Technologies: JavaScript, Java, JSP, Spring Boot, jOOQ, SCSS, AWS, DataTables, MySQL

Professional Driving Roles (Bus & Taxi Driver)

Stagecoach, Go NorthWest & Uber – Manchester, UK | Feb 2016 – Present

- Ensure safe and reliable transport services, maintaining an excellent safety record.
- Support diverse passengers, including those with additional needs, showing empathy and adaptability. Build strong teamwork, communication, and problem-solving skills in high-pressure, client-facing environments.
